

Cesar Peralta

Montreal, QC | (514) 836-3179 | cesaralexperalta@gmail.com

Professional Summary

Certified medical technologist with experience in clinical research, laboratory operations, and data management. Currently pursuing a B.Sc. in Computer Science in Artificial Intelligence. Strong interest in leveraging data science and machine learning to drive innovation across healthcare, finance, and other technology-driven sectors.

Professional Skillset

- **Languages & tech:** Python (Advanced), Java (Advanced), C, SQL, HTML, CSS, Git, Latex, REDcap API, Gemini API
 - **Certifications:** Professional Certificate for Python Programming (HarvardX), Microsoft Office Certified Specialist (PowerPoint, Excel, Word, Access)
 - **Domain Expertise:** Data Management, Clinical Research, Laboratory Operations, ICH GCP, GLP, GDP
 - **Multilingual:** English, French, Spanish
 - **Soft skills:** Critical thinking, adaptability, problem-solving, initiative
-

Experience

Clinical Research Coordinator

Lady Davis Institute | March 2024 – Present

- Developed a Python-based automation suite utilizing the REDCap API to batch-upload patient records, reducing manual data entry time by 65%.
- Engineered ETL (Extract, Transform, Load) pipelines in Python to extract diagnostic data from EyeArt and DRSoutput machines, transforming raw outputs into research-ready formats for REDCap.
- Built data-cleaning and anonymization scripts to resolve naming conflicts in CSV datasets, remove unwanted variables, and ensure researcher access to filtered, privacy-compliant data.

- Automated clinical report generation for patients using Python, increasing the efficiency of report delivery by 35%
- Led recruitment operations for over 600 patients and established standardized procedures that resulted in a 50% higher daily recruitment rate compared to the average.
- Managed high-integrity data for over 800 comprehensive patient files, including complex medical histories and medication tracking.

Laboratory Technician & QC Reviewer

CellCarta | September 2022 – March 2024

- Designated as Lead Scientist for a major clinical trial based on exceptional competency in laboratory operations and data management systems.
- Optimized laboratory throughput, maintaining an operational speed 60% faster than the site average while ensuring 100% adherence to quality results.
- Independently cleared 40% of a critical Quality Control (QC) backlog, ensuring project timelines were met for clinical study documentation.
- Authored and refined several Standard Operating Procedures (SOPs) currently utilized daily by laboratory staff to ensure operational consistency and regulatory compliance.

Blood Bank Medical Technologist

McGill University Health Centre (MUHC) | July 2022 – September 2022

- Selected as the primary operator for External Quality Control (EQC) testing, a role assigned based on a consistent record of diagnostic accuracy
- Managed high-volume diagnostic workflows, accurately processing over 100 clinical samples daily in a fast-paced blood bank environment.

Education

McGill University – Montréal

B.Sc., Computer Science (Artificial Intelligence) | Aug 2025 – Apr 2028 (expected)

Dawson College – Montréal

Diploma of College Studies (DEC), Biomedical Laboratory Technology | Aug 2019 – May 2022
